

Productivity boosted, fear lessened when different thinking patterns are supported – psychic applies at the corporate level her methods that heal individuals

Canadian high vibrational healer Nadine Mercey creates spiritual awareness **inside** business

(Toronto, ON) – Energy being directed, even from thousands of miles away, flowing into a patient’s body to increase the internal vibration. Dramatic physical changes being measured by a doctor. An end to pain. Laughter after years of suffering. Heightened awareness. That’s what high vibrational healer **Nadine Mercey** does on a daily basis for individuals. Now she’s begun working with businesses – on employees and the corporation entity itself.

Nadine’s emergence onto the international healing scene has been very quick. A year ago she was still holding onto her real estate career – she’d been in the top 3% of sales in Canada – while healing people as a sideline. Now she’s conducting readings for Hollywood celebrities and collaborating with the world’s top psychic mediums and healers. Nadine Mercey’s vibration is so high that she heals other healers. She’ll be hosting her own TV show in the autumn. Her new website sells Nadine’s own line of healing products.

An inspiring presenter, she teaches about oneness, love and balance – and the importance of laughter. Her personal story is told frankly and amusingly in her new book, ***Deeper Souls, Less Shoes***.

“In becoming a top realtor, I refused to listen to old-style motivational speakers or be constrained by specific targets,” says Nadine. “Instead I focused on being pure, working from the heart. When someone does this, it improves health, attitudes, cooperation. Clients are attracted to you, and you dis-attract or repel people who don’t support what you are manifesting.”

Employees who have more awareness of the oneness we share, have less fear, Nadine claims. So they are naturally more productive and innovative.

“In these times of enormous changes across the capitalist system and society, those businesses that have heart will seize opportunities, evolve and thrive,” predicts Nadine. “The whole corporate culture must understand synchronicity and encourage awareness.”

Understanding new life concepts is only half the battle, Nadine says. “People must **know** this is real, and that true greatness lies inside us all. That’s why we’re developing seminars to build awareness across entire corporations.”

One of Nadine’s business clients, a real estate brokerage, reports their sales are *up* over last year. “We don’t pay attention to all the negativity in the media,” the owner says. “To us there is no recession, and instead we are working together to manifest us all being happy and healthy. And it works!”

“We hope to have a film crew documenting our new breakthroughs with business,” Nadine says. “Life is supposed to be fun – it’s really about frame of mind. We can teach about selecting people by aura colour to balance a team, how to spark creativity, how to turn a whole company around.”
